a short forecastle, one 40-millimeter gun with a shield on the foredeck, a bridge with a signal mast on the forward side, one slanting stack, a twin-machinegun just aft of the stack and another one below on the afterdeck. the machineguns to be about 20 millimeters. They resembled Oerlikon guns but the mouths of the barrels were different (See sketch No. 1). The vessels were not equipped with mine sweeping gear and they had no cranes on the stem frame (See sketch No. 2).
